

SvgParser::SvgParser

```
graph LR; A[SvgParser::SvgParser] --> B[SvgParser::parse_components]; B --> B;
```

The diagram illustrates a self-call within the SvgParser constructor. A light gray box on the left contains the text 'SvgParser::SvgParser'. A straight blue arrow points from its right side to a darker gray box on the right containing 'SvgParser::parse\_components'. A curved blue arrow originates from the top of the 'parse\_components' box and loops back to its left side, indicating a recursive or self-referential call.

SvgParser::parse\_components
