

sc_dt::sc_unsigned
::nand_reduce

```
graph LR; A["sc_dt::sc_unsigned  
::nand_reduce"] --> B["sc_dt::and_reduce"]
```

A diagram showing a transformation from a function call to a library function. On the left, a gray rectangular box contains the text "sc_dt::sc_unsigned" on the first line and "::nand_reduce" on the second line. A blue arrow points from the right side of this box to the right side of another rectangular box on the right. This second box is white with a black border and contains the text "sc_dt::and_reduce" on a single line.

sc_dt::and_reduce
