

sc_core::sc_interface

```
graph BT; A["tlm::tlm_bw_direct_mem_if"] --> B["sc_core::sc_interface"]
```

The diagram illustrates an inheritance relationship between two SystemC interface classes. At the bottom is a gray box labeled 'tlm::tlm_bw_direct_mem_if'. A blue arrow points vertically upwards from this box to a white box at the top labeled 'sc_core::sc_interface'. This indicates that 'tlm::tlm_bw_direct_mem_if' inherits from 'sc_core::sc_interface'.
