```

The diagram illustrates a dependency or inheritance relationship. On the left, there are three white rectangular boxes with black borders. Each box contains a text string representing a namespace and a function or method. Blue arrows originate from the right side of each of these three boxes and point towards a single gray rectangular box on the right. This gray box also contains a text string in the same format. The arrows indicate that the three entities on the left are associated with or point to the entity on the right.
