

```
sc_core::sc_prim_channel  
::wait
```

```
graph LR; A["sc_core::sc_prim_channel  
::wait"] --> B["sc_core::wait"]
```

A diagram showing a transition from a wait state to a wait state. On the left, a gray rectangular box contains the text `sc_core::sc_prim_channel` on the top line and `::wait` on the bottom line. A blue arrow points from the right side of this box to the right side of a white rectangular box on the right. The white box contains the text `sc_core::wait`.

```
sc_core::wait
```
