```
graph LR; A[sc_boost::basic_string_view::find_last_of] --> D[sc_boost::basic_string_view::find_last_of]; B[sc_boost::basic_string_view::find_last_of] --> D; C[sc_boost::basic_string_view::find_last_of] --> D;
```

The diagram illustrates a merge or consolidation process. On the left, there are three separate boxes, each containing the text 'sc\_boost::basic\_string\_view::find\_last\_of'. Blue arrows point from each of these three boxes to a single, larger box on the right that also contains the same text. The box on the right is shaded gray, while the three boxes on the left are white with black borders.
