

sc_dt::sc_proxy::assign_

sc_dt::sc_proxy::assign_

sc_dt::sc_proxy::assign_

```
graph LR; A[sc_dt::sc_proxy::assign_] --> C[sc_dt::sc_proxy::assign_]; B[sc_dt::sc_proxy::assign_] --> C;
```

The diagram illustrates a data flow or dependency. On the left, there are two white rectangular boxes, each containing the text 'sc_dt::sc_proxy::assign_'. Blue arrows point from the right side of each of these boxes to a single gray rectangular box on the right, which also contains the text 'sc_dt::sc_proxy::assign_'. This suggests that the two left-hand nodes are inputs or sources for the node on the right.
