

sc_dt::sc_fxnum::q_mode

sc_dt::sc_fxnum_fast
::q_mode

sc_dt::scfx_params
::q_mode

```
graph LR; A[sc_dt::sc_fxnum::q_mode] --> C[sc_dt::scfx_params::q_mode]; B[sc_dt::sc_fxnum_fast::q_mode] --> C;
```

The diagram illustrates a dependency or inheritance relationship. Two white rectangular boxes on the left point via blue arrows to a single gray rectangular box on the right. The top white box contains the text 'sc_dt::sc_fxnum::q_mode'. The bottom white box contains the text 'sc_dt::sc_fxnum_fast' followed by '::q_mode' on a new line. The gray box on the right contains the text 'sc_dt::scfx_params' followed by '::q_mode' on a new line.
