

SvgParser::SvgParser

```
graph LR; A[SvgParser::SvgParser] --> B[SvgParser::generate_tree]; B --> B;
```

The diagram illustrates a self-call to the `generate_tree` method from within the `SvgParser::SvgParser` constructor. A light blue box on the left contains the text `SvgParser::SvgParser`. A solid blue arrow points from its right side to a dark gray box on the right containing the text `SvgParser::generate_tree`. A curved blue arrow originates from the top of the dark gray box and points back to its top, indicating a recursive or self-referential call.

SvgParser::generate_tree
